### **TdB Labs AB is looking for a synthetic chemist for large scale production.**

TdB Labs AB is a small family-owned biotechnology company based in Uppsala. We specialize in the development, manufacture, and sales of polysaccharides, especially dextran derivatives. In addition to our standard products, we also offer our customers customized products and analytical services. We are ISO 9001:2015 certified and take great pride in delivering high quality products and services and customer focus is always our first priority. Read more here [www.tdblabs.se](http://www.tdblabs.se)  
We are now looking for a synthetic chemist who wants to help us with our large-scale production.

#### **The role**

The tasks include working with large-scale synthesis, in batch sizes between 23 and 80KG. It may also include small scale synthesis manufacturing, but the focus will be on learning and becoming an expert on our newly installed 100L reactor. You will follow our manufacturing procedure documents which are well elaborated over time. Prior experience with working according to a quality management system is considered as an advantageous. The position is offered as a permanent position (after a 6-month trial period). There is great potential for the duration to be extended.

#### **Who are you?**

We are looking for someone who is used working with larger scale synthesis and preferably has experience of working according to a quality management system and someone who also enjoys heavier physical work. You will have a close collaboration with the rest of the production group. A requirement is that you must be able to cooperate and communicate well, as we consist of a small and close team. We also expect you to be accurate, prestigeless, loyal and flexible.

#### **Qualifications**

- Experience in synthetic organic chemistry
- Bachelor in Chemistry (BSc), Master in Chemistry (MSc) or Chemical Engineering (MEng)
- Work experience 3 years or longer
- Fluent in English, both orally and writing

#### **Interested?**

Submit your application no later than 2022-10-18, selection is ongoing. Send the application to Charlotte de Belder Tesséus at [charlotte@tdblabs.se](mailto:charlotte@tdblabs.se). Mark your application with "synthetic chemist".

If you have any questions, please contact Charlotte de Belder Tesséus via [charlotte@tdblabs.se](mailto:charlotte@tdblabs.se) or on 0768067788.
