

## **TdB Labs AB is looking for a Process Technician to production**

TdB Labs AB is a small family-owned biotechnology company based in Uppsala. We specialize in the development, manufacture, and sales of polysaccharides, especially dextran derivatives. In addition to our standard products, we also offer our customers customized products and analytical services. We are ISO 9001:2015 certified and take great pride in delivering high quality products and services and customer focus is always our priority. Read more here [www.tdblabs.se](http://www.tdblabs.se)

We are now looking for a Process Technician to strengthen the team. Join our dynamic team where every role is important for our continued development and success. We pride ourselves on fostering a collaborative and inclusive work environment that values each employee's contribution. At our company, you'll find a friendly atmosphere and a professional team working tightly together. Take the opportunity to be a part of our exciting journey!

### **The role**

The role as Process Technician in production includes the following:

- Get trained and maintain knowledge in the different manufacturing processes for our various products.
- Executing all steps in manufacturing processes incl chemical processing, packaging and labelling, strictly following our quality and safety instructions.
- Cleaning of equipment prior to use and after manufacturing.
- Be equipment owner for specific equipment in manufacturing and for that equipment setup preventive maintenance plan.
- Ensure that equipment is maintained and calibrated according to preventive maintenance plan.
- Take the lead for the overall preventive maintenance plan for the company and ensure that plans are set up and executed.

### **Qualifications**

- Experience with working as a process technician within life science.
- Experience with large scale production, especially chemical synthesis.
- Experience with preventive maintenance and calibration.
- Good documentation practice and experience from working with GMP and/or ISO9001.
- Experience from working in an environment with high focus on safety incl EX classified areas.
- Knowledgeable in English in speech and in writing. Knowledgeable in Swedish is favorable.

We see that you collaborate with other colleagues with mutual respect and with low prestige. We are proud of our multicultural working environment where English is our company language. Thus, you are confident in English both in speech and in writing. As a person, you are social, positive and treat your colleagues with empathy.

### **Interested?**
